Fun parks
St. Anton: STANTON PARK Rendl
Lech: Snowpark / Easypark at the Schlegelkopfbahn
Warth: at the Osthangbahn
Warth: at the Wannenkopfbahn and the Karhornbahn

Fun slopes
Lech: at the Schlegelkopfbahn
St. Anton: at the Osthangbahn
Warth: at the Wannenkopfbahn and the Karhornbahn

Speed Check
St. Anton: STANTON SPEED at the Rendl
Lech: at the Weissenbachbahn with photo point
Zürs: at the Babylift St. Anton: RENDL RACE at the Rendl
Stuben: at the Walchlift
Schröcken: at the Saloberjet
Sonnenkreuzer parallel slalom slope
Warth: at the Wartherhornbahn, at the Wannenkopfbahn with video recording (Skimovie)

Sledging run
St. Anton: Gampen: 4.2 km long, illuminated natural sledging run to Nasserein open daily from 12:00-16:15 h. Information and dates for evening sledging in St. Anton at: www.skiarberg.at
Lech-Oberlech: 1.2 km long, illuminated sledging run with snow cannons from Oberlech to Lech. Open all day from 09:00-21:00 h. Sledges can be hired at Bergbahn Oberlech.
Warth: Sledging run at the Dorfbahn. Sledge hire at the base station. Operation during the operating hours of the Dorfbahn Warth. Details of the weekly evening sledging events are given on the noticeboard and the website.

Ski runs are marked and prepared if possible; they are checked and secured against atypical alpine dangers, especially avalanches.

Ski routes are marked and only secured against the risk of avalanches; they are generally not prepared or checked, or only in some cases.

Ticket information:
Ticket office
Ticket machine with pickup function
Pickup box

Warning lights:
Yellow: Outside the safeguarded ski runs there is the risk of avalanches.
Level 4 (= HIGH) or Level 5 (= VERY HIGH)
Orange: Slope maintenance equipment in use
Ski run and ski route signs:
= closed = open

Slope closures and avalanche blasting: It is forbidden and a chargeable offence to enter closed ski runs and ski routes. It is not permitted, without exception, to enter forested areas and walk or sledge on ski runs. From the last checking run, immediately after the last ascent, ski runs and ski routes are closed due to the danger from slope maintenance vehicles and cable winches. Please note: No safety cordons! When there is a risk of avalanches, never use closed runs. In order to safeguard their own safety, people on tours outside the safeguarded and open ski runs are responsible for obtaining information about blasting from slope management. Please note: During and after fresh snow falls there will be avalanche blasting in the area - risk of avalanches! Avoid areas with avalanche risk at these times! Information at the base stations. Skiing accidents: In case of an accident, please report the accident with exact details using the emergency call point, nearest lift station or designated call point. For the telephone numbers for the ski run rescue service for the respective area, refer to the information block. The ski run rescue service is chargeable. Ski run preparation: The use of slope maintenance machines, also while the ski runs are in operation, cannot be avoided. Please be sure to keep a safe distance from these machines. Do not cross below slope maintenance vehicles on steep slopes as these may accidentally slip down. Where the view is restricted, in narrow passages or on cat-tracks, take extra care as slope maintenance vehicles may come the other way. Fresh snow: The Arlberg lifts and cable cars are well known for their efforts to offer perfect ski run conditions every day. However, when fresh snow falls it is unfortunately not always possible to prepare all runs at the same time, even with maximum deployment of slope maintenance equipment. Furthermore, in certain weather conditions fresh snow will not attach itself to the older snow covering below and will slip, forming heaps and bumps in spite of the preparation work. This cannot be prevented, even with the best ski run management.
